

13045 - Mrs. A. V. Almond, Westfield, Indiana, and her washing machine that is run by small electric motor. This was an old hand power washing machine and Mr. Almond made the belt connection so that it could be driven with the electric power which he has from high power line. The machine has been in use seven years, five years as a hand operated machine and two years with electrical power.

J. C. ALLEN
WEST LAFAYETTE, IND.

13045 - Mrs. A. V. Allen, Westfield, Ind. 12, and
her husband, Thomas, for a small electric
motor. This was an old motor with machine
and belt connected to belt
it still is driven with the electric power which
is a first class one. The machine has been
in use seven years. It is used as a hand operated
machine and the belt is electrical power.
